Dr. Narottam Sahoo

Advisor & Member Secretary

GUJCOST\ATL-Lab\2017-18\

27th June 2017

To,
Dear all CSC Coordinators

Sub: Nomination of School for Atal Tinkering Laboratories (ATLs) programme.

Dear Sir

Warm Greetings from Gujarat Council on Science & Technology, GUJCOST, Gandhinagar.

It is our pleasure to inform you that NITI Aayog, Govt of India, through its Atal Innovation Mission (AIM) is establishing Atal Tinkering Lab (ATL) in schools. The ATL is a workspace where young minds can give shape to their ideas through hands on activities and develop innovation skills.

The objective of this scheme is to foster curiosity, creativity and imagination in young minds; and inculcate skills such as design mindset, computational thinking, adaptive learning, physical computing, rapid calculations, measurements etc. Young children will get a chance to work with tools and equipment to understand what, how and why aspects of STEM (Science, Technology, Engineering and Math).

Under this scheme, schools will get 10 lakhs for capital support and 10 lakhs over 5 years for operations support. For more detail please have a look into the link : <http://niti.gov.in/writereaddata/files/ATL%20-%20Final%20Guidelines%20-%202017-18.pdf>.

During 2016-17, the AIM has established 457 Atal Tinkering Lab (ATL), out of which 18 ATL have been established in Gujarat. This year the announcement for establishment of new ATL has been published, for which the last date for submission of application is **15 July, 2017**.

In this connection, we request you to please identify the 20 model schools in your district and encourage them to apply for ATL through online application within the due date.

You are also requested to send the list of such schools to GUJCOST for the necessary follow up.

Please feel free to contact us for further queries.

Yours sincerely,

(Narottam Sahoo)

Hon. Director
C. C. Patel Community Science Centre,
