PROGRAMME STRUCTURE

Master of Arts in Economics

MA (Economics) Semester: I

Programme Outcome (PO)- For Economics Programme	Economics is one of the oldest subject taught. The development of society is precisely governed and determined by behaviour of an individual at a micro level on one hand and that of an aggregate behaviour of a number of different economic individual groups, economic sectors and different economic organizations as well. The programme enables students to understand, examine and evaluate various economic theories, economic programmes, economic policies, etc. The programme focuses to explain individual, organizational, regional, and international economic behaviour under static and dynamic conditions.
Programme Specific Outcome (PSO)- for MA Economics Semester-I	The programme will enable students to: <ol style="list-style-type: none">1. Interpret and examine various decision making behaviour of microeconomics related to the study of the economic behaviour of an individual consumer, producer, a firm, a market and factors of production.2. Explain and illustrate various behaviour related to aggregate units of a nation by studying macroeconomics.3. Recall, estimate and compute the values of various economic variables from available information using mathematical and statistical economics.4. Establish profound knowledge in specific filed of economics like agricultural economics & environmental economics.5. Have clarity about the methodology and different types of equilibrium.
To Pass	At least 40% Marks in the University Examination in each paper and 40% Marks in the aggregate of University and Internal examination in each course of Theory, Practical & 40% Marks in Viva-voce.
